

The Civil Service Awards wins Silver at the Awards Awards

Created to recognise and celebrate the wealth of inspirational individuals, collaborative teams and innovate projects across the Civil Service, The Civil Service Awards have been recognised with Silver in the category of Best Overall Awards Event at the 2019 Awards Awards.

‘Our event has gone from strength to strength since it was launched in 2005, and has become one of the most important dates in the Civil Service Calendar,’ said Sophie Millar, Head of the Government Events team at Dods. ‘We are delighted with the feedback from the judging panel, especially the recognition of the Awards as a full programme that adds value beyond the ceremony itself.’

Judges praised the online Awards Community Hub, which shares case studies and reports on the winners, as well as the plans to create an alumni. The team were credited for their ‘amazing’ entry statistics and continued engagement with both audience and sponsors.

The judging panel worked their way through a record number of nominations in 2018. The categories for 2019, each with its own judging panel, include Citizenship, Collaboration, Diversity and Inclusion, Digital, Health and Wellbeing and Innovation and are now open for entries.

The judges recognised the place the Civil Service Awards hold in the government landscape, and the support received from the MPs and members of the Royal Family.

‘We are proud that these Awards are greatly valued by the entrants and we continue to look for special venues to make the ceremony as memorable as possible for all involved,’ added Sophie.
